

Texas Instruments: More Than A Graphing Calculator

Do your students have access to the TI-84 CE or the TI-Nspire? If so, you won't want to miss the opportunity to watch Dana Morse, an Educational Technology Consultant for Texas Instruments, as he presents the basics, the need-to-knows, and the making-the-best of each device. Even if your district is in the process of deciding which device to transition to, utilize this opportunity as a learning tool to make the best decision for your district and students.

**This is a COSER 517 & 529 opportunity.
NYS Teaching Standards II, III, & VI**

Wednesday, October 17, 2018
CA BOCES Main Center
Training Room AB
