

Cattaraugus-Allegany School Library System

Fall CASLS Workshop

October 18, 2018

FAKE NEWS

Teaching Students to Read Critically

Technology makes it possible for anyone to share news, including opinions that sound like facts. What is a reliable resource? What influences students' thinking? How might students decide whether 'news' is worth sharing? This session will provide authentic learning activities that can be used in collaboration with teachers or with students you instruct in the library.

Library Hacks

Have you created a clever solution that has increased efficiency, added vibrancy to old routines, or is simply so amazing you would like to share with other librarians? Don't be shy! Bring your ideas and artifacts.

Tech Petting Zoo

Interested in creating a maker space in your library but not sure where to start? Come see examples of what librarians are using and the problems students are solving.

Something to think about: What type of learning activities might complement your school's student achievement goals for this year?

Teaching Standards:

2.2; 2.4; 2.5; 2.6
3.4; 3.5
5.1
6.2;
7.1; 7.2; 7.3; 7.4
