Our Vision

Together, we can do better.

All students, school districts, families and communities have equitable access to rich resources to improve student learning, strengthen families and create healthier communities. School and community partnerships are empowered and connected in meaningful ways, problems are solved and resources are used effectively.

NYSED Central/Western Region Community Schools TAC

Our Mission

To support New York State judicial districts five, six, seven and eight in building upon the existing strengths of school districts to remove barriers to learning and support the whole child through technical assistance, professional development, and the creation of Communities of Practice that advance the community schools strategy using an interconnected systems framework.
