

Comprehensive School Counseling Program Development Series 2016-2017 COSER 529

Now's the Time:

With the support of CA BOCES and successful ASCA framework practitioners, school counselors will design and deliver comprehensive school counseling programs that promote PK-12 student achievement. These programs are comprehensive in scope, preventative in design, and developmental in nature.

The May 10th session (it's recommended that administrators attend this session with counselors) will outline the components of a comprehensive school counseling program using the ASCA National Model: foundation, management, delivery, and accountability. The focus for the summer sessions will be to prepare counselors with the knowledge, skills, and appropriate practices needed to successfully implement a comprehensive school counseling program.

These sessions will build the foundation for the development of district-wide and building-level comprehensive school counseling plans.

ASCA National Standards:

Academic Development
Career Development
Personal/Social Development
