

Presenting...

Graphic Novels: The World in Words and Pictures

This workshop will guide participants through an engaging and accessible exploration of the graphic novel medium. Learn the importance of the format in the development of literacy and methods designed to bring graphic novels into the library and classroom. There will be time for questions, discussion, and hands-on examination of selected works. Leave with take-away resources including recommended title lists, suggested additional reading, and materials designed to assist in further exploration!

Teachers are encouraged to bring their lessons and unit plans to start to map out where they can implement graphic novel exposure into their curriculum.

When: November 1, 2016

*Where: Olean Main Center 1825 Windfall Road Olean, NY
Conference Rooms 1, 2, & 3*
