

# Informed Teaching Series

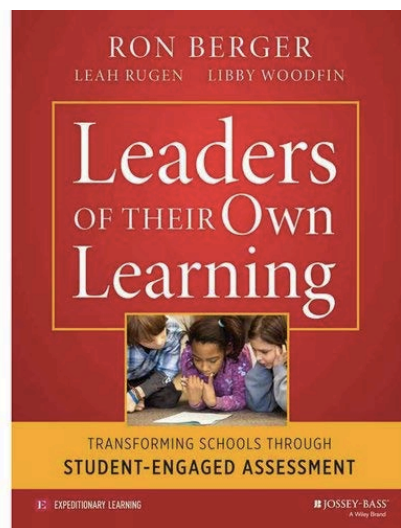

**-A CLC for Supporting Teachers in Their Efforts to Inform Instruction  
Through Data Analysis and Student-Engaged Self-Assessment-**

**Are you curious how to better  
inform your everyday instruction?  
Are you looking to involve students  
in the process of assessing  
how and what they're learning?**

Data-driven instruction is a constant in the field of education, and as teachers, it is important to continuously use the data to inform instruction.

Through this series, teachers will have the opportunity to explore practical ways to track student learning without formal data-analysis, but through modes of student-engaged self-assessment and formative tools for informing personal instructional practice. Through the use of the *Leaders of Their Own Learning* text by Ron Berger, teachers will walk away with a myriad of ways to evaluate and inform their classroom instruction.

## *Join Us:*
