

Elementary Math for 3-5

Supporting the Implementation of the CCSS for Mathematics

Join fellow educators from throughout the region as we dig deeper and explore practical strategies and resources for the implementation of the Common Core State Standards for Mathematics, the Shifts, and the Standards for Mathematical Practice.

To support these learning opportunities, facilitators will use a **blended model** of face-to-face meetings, Adobe Connect, and Moodle, all of which will have a heavy emphasis on teacher collaboration.

Through the blended learning atmosphere, participants will have the opportunity to create their own learning from the following topics:

Learning
Targets

Quality
Assessment
Design

Building
Parallel
Questions

Academic
Vocabulary

Data Driven
Instruction
in Math

Number Talks
