

Mindsets in the Classroom: For Teachers

-Working to Build a Culture of Success in Our Classrooms and Schools-

Looking for ways to build a growth mindset in your students?

When students believe that dedication and hard work can change their performance in school, they grow to become resilient, successful students. Inspired by the popular mindset idea that hard work and effort can lead to success, Mindsets in the Classroom provides educators with ideas and ways to build a growth mindset culture within the classroom, wherein students are challenged to change their own thinking about their abilities and potential. Through this experience, teachers will learn some of these techniques for fostering a growth mindset and setting students on a path toward I CAN!
