This is a COSER 517 offering

Computer programming/Coding is a great opportunity to teach students to be logical thinkers and help them get jobs in a growing field. This CLC is for any content teacher who is interested in learning something new, is curious about coding or just wants to test their growth mindset. During this CLC, teachers will learn to create their own video games, program in Python, and problem-solve on different resources. They will learn to run their own “hour of code” session at their own comfort level with very close guidance.

Equal Opportunity Notice

CA BOCES hereby advises students, parents, employees and the general public that it offers employment, programs and educational opportunities, including career and technical education opportunities, without regard to gender, race, color, national origin, handicap or any other legally protected status. Inquiries regarding this nondiscrimination policy and grievance procedures may be directed to: Human Resources Director, Cattaraugus-Allegany BOCES, 1825 Windfall Road, Olean, NY 14760; 716-376-8237.
