

# STEM/STEAM Learning Visits

*Genesee Valley Elementary School  
& Wellsville Elementary School*

**Date: Tuesday, June 5, 2018**

**Time: 8:00 a.m. - 3:00 p.m.**

Genesee Valley Elementary School and Wellsville Elementary School are committed to providing the best teaching and learning environments for our students. We have embraced the power that technology has in today's world, that it has profoundly changed the way we teach our students, the way our students learn and overall how we interact with each other. We continue to build our students 21st century capabilities: creativity, innovation, critical thinking, problem solving, independent research, collaboration and communication though integrating STEM/STEAM and digital learning into our Elementary curriculums. These two Allegany county Elementary school districts have embraced one to one technology within our classrooms and continue to build the capacity to engage all students in ways that are beyond the traditional classroom experiences. Come visit Pre-Kindergarten through sixth grade classrooms, teachers and administrators who have shared in the struggles, celebrations, and successes of integrating the future into our today.

## Overarching ideas for the day:

- What is your STEM/STEAM mission?
- What do you hope to get out of the day?
- What can you take back to your school?
- Who can support you in your STEM/STEAM mission?
