Teaching Perspective and Bias & Collaborating Across Disciplines :
Science, English, & Social Studies

Fake news has been around ... well, at least since Nero. From today's headlines to those of the late 1600s, learn how to use original news articles to teach perspective and bias. Engage students visually and intellectually using processes and technology they are familiar with.

Objectives:

- Locate resources that align with curriculum standards
- Examine primary sources grouped by military/government; social issues/pop culture (art, music, literature); science/inventions/firsts (including sports).
- Execute keyword searches and use filters for best results

Please bring your laptop / iPad **and** a lesson or unit that needs to be re-worked. Maybe the content is boring or students struggle with understanding a concept. Time will be provided for you to leave with a revitalized plan!

Participants will leave this workshop knowing how to maximize primary sources including cartoons and advertisements, utilizing headlines and activities for engaging students, and design a collaborative unit or lesson.

Teaching Standards:

2.2; 2.4; 2.5; 2.6
3.4; 3.5
5.1
6.2;
7.1; 7.2; 7.3; 7.4

To register:

Please have your Curriculum Coordinator/ Contact Person visit register.caboces.org.

Location:

Learning Resources
182 East Union Road
8:30—2:30
Registration: 8:00—8:30
Light breakfast & lunch provided.
