

Texas Instruments: More Than A Graphing Calculator

Dana Morse, an Educational Technology Consultant for Texas Instruments, and Mark Beckwith will be co-facilitating a TI-Nspire workshop to meet the needs of all participants. Those new to or those still exploring the TI-Nspire can join Mark as he covers the basics and necessities for all courses, and those who are looking to dig deeper into Nspire technology can join Dana as he demonstrates more of the geometry and statistics capabilities. At the end of the day, we will regroup and explore how to use either the TI-84 CE or the TI-Nspire as a programming tool.

**This is a COSER 517 & 529 opportunity.
NYS Teaching Standards II, III, & VI**

**Wednesday, October 17, 2018
CA BOCES Main Center
Training Room C**
