

Technology Tools for Computer-Based Testing

Date: 8/1/2019
Site: CABOCES–Olean Main Center
Time: 08:30 AM – 11:00 AM (Math)
12:00 PM – 2:30 PM (ELA)

COSER
517

Description:

Join regional educators seeking to better prepare themselves and their students for digital assessments and for computer-based state assessments in particular. We will explore digital assessment tools that are readily available in addition to a primary focus on the state assessment sampler. Regional educators are welcome to attend either one or both sessions; there will be a mathematics emphasis during the morning session from 8:00am until 11:00am and a focus on ELA during the afternoon session from 12:00pm to 2:30pm. Registration will begin 30 minutes prior to the beginning of each session, and refreshments and lunch will be provided for all who attend.

Facilitator(s):

Alex Freer, Clay Nolan, Mark Beckwith

Objectives:

- Participants will explore digital assessment tools.
- Participants will explore the Questar state assessment item sampler.
- Participants will complete at least one Questar assessment sampler.

Audience:

Grades 3 – 8 Teachers

To register, please have your district's registration representative enroll you at this URL: <https://register.caboces.org>
