

# Instructional Tools for Blended Learning

**Date:** 11/14/2019

**Site:** CA BOCES Barn

**Time:** 08:30 AM – 02:30 PM

COSER  
517

## Description:

Blended and Personalized instruction explores models (Station Rotation, Individual Rotation, Flipped Classroom, and Flex options) of blended learning and the strategies, resources, and tools that support each model. Participants will build off their personal experience and current classroom context to determine which models and strategies best fit their instructional needs and are the most effective in meeting the personalized needs of their students.

## Facilitator(s):

Robert Griffith

## Objectives:

-Participants will be able to analyze various tools to bring together various forms of instruction to meet their students needs and will apply the blended learning model using at least one tool to support that model.

## Audience:

Teachers: Grades 6-12 (all subjects)

To register, please have your district's registration representative enroll you at this URL: <https://register.caboces.org/seminar/view/3029>
