

Don't Take the Bait—Hesitate!

Practical Skills for Educators Avoiding Copyright and Privacy Concerns in 2020

Tuesday - February 25th, 2020

8:30 am - 3:10 pm

As it gets easier to copy and share information, educators and support staff are hit with increasing amounts of regulation and policy governing copies and privacy. At the same time, the work environment gets faster-paced. Join us for an accessible presentation and discussion of every-day practices to resist the urge to “just do it,” when it comes to making copies and sharing private information. Organized in two sections (“Copyright for Educators” and “Privacy for Educators”), this session will cover in-depth:

- Copyright & Fair Use
- Licensing
- Trademark
- Education Law 2-D
- FERPA
- Policy considerations
- Modeling compliance for students
- Red flags and tips for avoiding violations

Please send in any questions by Feb. 10 to athompson@e1b.org to have them addressed at the session.
