

# School Librarians Teaching & Leading Through

# Disruption

dialogue and practice around librarianship across five 1-hour sessions

Join your colleagues from across the region to move from reactive to proactive. At the end of this series you will be among the school librarians saying that despite the disruption all around, you are teaching and leading with confidence. Armed with priorities, librarians develop instructional plans that allow them to pivot at a moment's notice adapting to the needs of students, educators, and administrators. We will build off of student strengths and use our trusted foundational documents, such as the Empire State Information Fluency Continuum, to ground our work.

**Dr. Jen Cannell**  
Director - Library  
Media Specialist  
Program  
*St. John Fisher College*

Contact your school official to register  
you through CABOCES' registration  
system

Free for member librarians of  
CA BOCES Erie 1, and Erie 2

**3:30 - 4:30 pm**  
**each day**
