

School Library Program Rubric

You're so Basic: Use it to your advantage

Join us for an interactive **virtual session** designed to celebrate school libraries. We'll use the newly updated School Library Program (SLP) Rubric to examine our work. Included will be an exploration of the foundational values of accessibility, cultural responsiveness, equity, ethics, intellectual freedom, and privacy and how they help guide our decisions as school librarians.

By the end of the session, you will:

- understand why “basic” is a great starting point
- identify areas of focus to advance your program
- begin an action plan template to achieve your goals

We'll break down this complex document into bite sized pieces that allow you to successfully review your program and identify goals for advancement.

Please bring your SLPR or other Member Plan document to work with.

Dr. Jen Cannell
Director - Library
Media Specialist
Program
St. John Fisher College

Registration

~~Registration is free for member librarians of CA, Erie 1, Erie 2, and ON BOCES. For more information, contact Jen Cannell at 205.45.10.~~
