Both public and school libraries are community centers at heart, with the same goal: to provide a safe, welcoming environment for all patrons and access to information in a variety of formats. When public and school librarians and library workers engage in collaboration, community members reap the benefits (ALSC, 2018).

Please join the Systems Directors from the Chautauqua-Cattaraugus Library System and the Erie 2 and CA BOCES School Library Systems for a day of dialog, exploration, and brainstorming around school and public library collaborations.
