

CONSTRUCTIVIST MEDIA DECODING

THURSDAY, FEBRUARY 9TH

8:30AM - 2:30PM

IN PERSON AT ERIE 1 BOCES

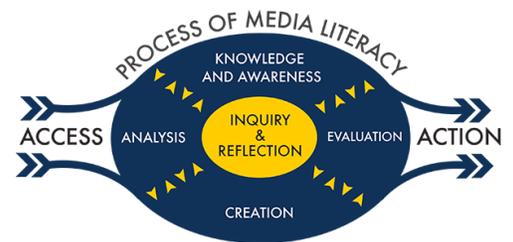

355 HARLEM RD, WEST SENECA, NY 14224 - ROOM B2A & B2B

Teaching Students to
Decode the World

THE GOALS

Chris Sperry, co-founder of Project Look Sharp, will engage participants in a practical model for media decoding that can be integrated at all grade levels and subjects. This question-based approach uses rich media documents – from blogs to books and paintings to Pinterest – to motivate all students to learn core IFC and subject area standards. In the afternoon participants will review free classroom-ready lessons and PD materials, and create plans for implementing this work. Follow-up leadership opportunities will be available.

10 SPACES AVAILABLE

NO SUBSTITUTE REIMBURSEMENT

REGISTRATION:

HAVE YOUR DESIGNATED SCHOOL OFFICIAL VISIT [HTTPS://REGISTER.CABOCES.ORG](https://register.caboces.org) AND LOCATE THE FEBRUARY 9TH WORKSHOP

CTLE CREDIT

This session will provide CTLE Credit for attendees. Your local School Library System will provide that to you.

REMOTE VIEWING

There will be a remote viewing option for those unable to attend in person, but remote viewers will not be able to participate in the group work.
