

# INTRODUCTION TO UNIVERSAL DESIGN FOR LEARNING WITH GUEST SPEAKER!

Educators often encounter challenges in addressing the diverse needs, strengths, and identities of students within inclusive learning environments. Universal Design for Learning (UDL) offers a proactive framework that enables teachers to identify and reduce barriers in instructional design, creating flexible and accessible learning experiences for all students—including those requiring significant support as well as those needing additional challenge. This session will provide an introduction to the core principles of UDL and offer practical strategies and tools to support the development of inclusive, student-centered classrooms.
