

K-5 MATH INSTITUTE

**JULY 27TH
JULY 28TH**

This two-day institute will empower K-5 educators with practical strategies to strengthen math instruction. Participants will explore high-leverage approaches for solving word problems, using multiple representations, and leading rich mathematical conversations across grade levels. We'll review regional data to inform instruction and provide dedicated time for collaboration and lesson planning.

Workshop Highlights

- 1. Enhance Instructional Practices:** Equip educators with effective Tier 1 and Tier 2 instructional strategies and hands-on tools, aligned with the New York State Next Generation Mathematics Learning Standards, to support diverse learners and foster a deeper understanding of foundational math concepts.
- 2. Integrate Cross-Disciplinary Approaches:** Provide educators with strategies to integrate coding, literacy, and real-world applications into math lessons, strengthening students' spatial reasoning, vocabulary, and problem-solving skills.
- 3. Develop Collaborative Action Plans:** Facilitate collaborative planning and action sessions for educators to create concrete implementation plans, ensuring consistent curriculum delivery and building a regional network of support for sustaining best practices in math instruction.

If you are interested (or have a staff member who is interested), please reach out to your district's representative so that they can complete registration.
