

CA BOCES Evaluation Summary Form Regional Professional Development

Use this form as a cover sheet for participant evaluations at the end of each regional professional development event. This form should serve as a summary of participant evaluations.

Satisfaction:

1. To what extent did the participants indicate you addressed the stated outcomes?	1	2	3	4	5
2. To what extent was the information meaningful to the participants?	1	2	3	4	5
3. To what extent did the participants indicated you promoted a positive learning environment?	1	2	3	4	5
4. To what extent did the participants predict it would impact student learning?	1	2	3	4	5
5. To what extent did the participants say they would recommend this learning opportunity?	1	2	3	4	5

Learning:

What were some of the major comments and takeaways from participants regarding what they learned?

Participants learned what Guided Math/Workshop model is.

Participants learned how to access available resources to incorporate into the guided math structure.

Participants explored multiple options for grouping students using a guided math structure.

What did participants indicate they still need to support further learning or application of their learning?

-Participants would like to visit a guided math classroom within the region. Possibly a Fillmore classroom recommended by Kathleen Agnello.

-Participants would like a make and take day to start building centers for the 1st grade math standards.

What did the participants indicate they plan to do as a result of their learning?

-Start to build one learning center a week and begin to experiment with 102 guided math groups a week.

-Explore resources shared and become familiar with the guided math structure for the 2019-20 school year.

Great job (5) I enjoyed learning about the math workshop model.

I expected: To learn about the math workshop model.

I received: Materials related to the math workshop model.

After this workshop I plan to:

Explore the websites to see how I can use the math workshop model in my classroom.

I still need: .

Clarification on how this can be used in the 7-12 grade levels

Comments:

Great presentation. It was helpful to see something that the lower levels are using to teach math to the students that I will have in the future.
