still need help with.....

N/a

Just need more time with the programs discussed.

All questions were answered - I may need help inviting students to the online accounts but we will see!

Figure which program is which!

None

Implementing some of the tools in my specific content area

Recalling all of the sites used

Nothing

Nothing!

Here are some things I plan to...

Use Pixar in a box with students.

Try flip grid in my class.

Use Buncee and Pear Deck.

Try myself to use a few of these this year.

Implement this into my classroom

Integrate Peardeck and Pixar in a Box in my classroom this year.

Utilize flipgrid AR

Incorporate some of the sites used

Use these awesome websites!

Implement some of the new forms of technology that I learned about today!

Please feel free to add any additional comments regarding today's training in the space below.

Great day!

Peer deck access would be nice.

The instructor was great!

Good day thanks!

Great!!

I like the variety of tools presented. Many a handout with just a list of the things we visited would be nice. There were so many tools it was hard to keep track of what we visited

Good job

Thanks Ryan! It was an educational day.

V/A!

Pioneer Summer Tech Tools 2019

CoSpaces EDU - <https://cospaces.io/edu/> Create and view worlds/scenes in AR/VR

FlipGrid – www.flipgrid.com Video response tool used to communicate thoughts, ideas, and more

Adobe Spark – www.spark.adobe.com Quickly create posters, videos, websites from 1000's of templates with images and sounds included

Buncee - <https://app.edu.buncee.com> Buncee is a one-stop-shop to build media-rich lessons, reports, newsletters, presentations and so much more!

Canva - <https://www.canva.com> Create brochures, newsletters, posters, flyers and more for free.

Sutori - <https://www.sutori.com> Collaborative timeline presentations for the classroom

Novel Engineering - <https://www.novelengineering.org/classroom-books/> Novel Engineering projects are designed around books that teachers choose, generally trade books with interesting plots, rich characters and detailed descriptions of the setting. As they read the text, students are prompted to identify problems faced by characters in the text and whether these problems are ones that might be addressed with a product or process that the students could design in the classroom.

Pixar In A Box - <https://www.khanacademy.org/partner-content/pixar> Pixar in a Box is a behind-the-scenes look at how Pixar artists do their jobs. You will be able to animate bouncing balls, build a swarm of robots, and make virtual fireworks explode. The subjects you learn in school — math, science, computer science, and humanities — are used every day to create amazing movies at Pixar. This collaboration between Pixar Animation Studios and Khan Academy is sponsored by Disney. If you have questions or ideas, email us at piab@khanacademy.org.

Wakelet – www.wakelet.com Pinterest for education

Pear Deck (PowerPoint Add-In) – Inside of PPT, click on “Insert”, “Add-Ons”, “Pear Deck” (or store if not loaded yet). Allows to create quick presentations with many interactive and flexible features right while presenting.
