Eaustin@belfastcsd.org	7167134526	Yes	I'm excited to use this in my classroom! A great training of an awesome science kit!
		Yes	

May we use any of your comments
in future presentations, publications,
and advertisements?

What else should we know about
the materials provided in this kit?

What else should we know about
the curriculum provided in these
kits?

What else should we know about
the AdvancingSTEM website?

Yes

I would like to see more built in
assessments throughout the unit.
Other than that, I think this will be
an awesome resource to use in
my classroom!

Yes

I really love the newly re-worked
kits! Love the scaffolding of
lessons!

Do not have card stock copies of
student manual to copy. They do
not go into a copy machine so
you need to print them.

Love it! Love that you can find
monthly stem activities too! Did
not know this!

Thank you! What a great
resource! It looks like a lot of
important work went into
developing the kids and website.
Thanks!
